

Chemistry I: Oxidation-Reduction Chemistry Web Quest

Task: research a use of an oxidation-reduction process such as batteries, electroplating, bleaching or fuel cells or more.

Develop: a 2-page fact sheet on the topic.

The back page should be a works cited type/ sources statement

Grouping: two students to a group randomly assigned by teacher

Structure of fact sheet

- A. Title: nice, understandable and neat
- B. State the process
- C. What is it used for in real life
- D. Give a brief explanation of the Chemistry
- E. Show the redox equations
- F. Is this process "a green" process (environmentally friendly)

My number is _____

The due date for this assignment is 27 May 2010

Assignment value: 50 pts (rubric to follow)
